Delta Infrastructure Services JV LLC

A Federally Recognized Alaska Native Corporation (ANC)

CAPABILITY STATEMENT

Headquartered in King Cove, Alaska, with a field office in Columbus, Georgia, **Delta Infrastructure Services JV LLC (Delta Infrastructure)** is a Joint Venture created to leverage the experience of Webb Construction and Delta Point to support Federal customers. Delta Infrastructure is an SBA 8(a) Certified Alaska Native Village Corporation (ANC) and socio-economically disadvantaged small business. As such, Delta Infrastructure is entitled to unique privileges under applicable federal regulations. As defined by the SBA, the 8(a) contracting vehicle is a flexible procurement technique that allows the customer sole discretion to choose the specific contractor team, which provides the highest level of customer flexibility to achieve their program goals and objectives.

Delta Infrastructure is certified to receive Sole Source Contracts of any value. These sole source awards do not need to be advertised and cannot be protested due to the exclusive privileges under federal regulations. ANC firms such as Delta Infrastructure are not subject to the \$4.5 million limitation applicable to other 8(a) entities. (13 CFR 123, 124 and 311b) ANC 8(a) sole-source awards may not be protested. (13 CFR 124.517(a)). The Sole Source awards can be awarded with a ceiling of \$100M without requiring a Justification and approval document and unlimited with one.

Delta Infrastructure comes with decades of experience in government and commercial business solutions. Delta Infrastructure empowers our staff and expects them to meet the complex requirements of our customers with innovative solutions.

Executive and Senior Leadership within Delta Infrastructure is a time-proven team that has successfully supported Government customers in the past, fully meeting the expectations of our customers. Delta Infrastructure is the newest company in this team's mission to provide exceptional service for Government at a cost that reflects their concern to help the Government maintain fiscal responsibility without compromising performance.

Webb Construction has, in over 50 years of continuous operation, compiled a history of successful projects across the Southeast for both Governmental and civilian customers. Webb is and always has been a family-owned, full service general construction firm that self-performs an above average percentage of its work; Webb is more than construction management. As a customer-focused firm, they orient their project delivery method to suit the needs of each unique situation, striving to excel for themselves and their customers.

Delta Point LLC is an SBA (8a) Certified Alaska Native Village Corporation (ANC) and socio-economically disadvantaged small business. Delta Point is entitled to unique privileges under applicable federal regulations. As defined by the SBA, the 8(a) contracting vehicle is a flexible procurement technique that allows the customer sole discretion to choose the specific contractor team, which provides the highest level of customer flexibility to achieve their program goals and objectives. Delta Point delivers a wide spectrum of capabilities to both government and commercial sector customers.

A Proven Team Qualified to Lead

Delta Infrastructure is rapidly becoming one of the Government's contractors of choice when both time and budget are a concern. Unlike many small businesses, we can deliver services to Government clients directly from our experienced staff and partners.
